Cadillac Club of Switzerland

PROGRAM

Wednesday, August 26th

from 12:00 The Welcome Desk is open from noon. In front of the hotel entrance there is not much space for cars, so after unloading your luggage and getting the team-information, please park your Cadillac as soon as possible at the place indicated to you.

If you have registered for the tour to the Säntis on Thursday, you should purchase your vouchers right away on Wednesday at the Welcome Desk. The tour will take place only if the weather is appropriate.

19:00 Our president welcomes you at the Welcome Dinner at the restaurant of the hotel Seedamm Plaza.

Thursday, August 27th

The driving distance on Thursday is approximately 210 km. Although there are several gas stations along the route, we recommend to fill your tank the evening before. Parts of the route are Autobahn. For these parts you need a toll sticker, which you can purchase at gas stations if you have not done so yet.

08:00 Departure of the teams that will go to the Säntis by cableway. The vouchers for this tour should be purchased on Wednesday, since we need to inform the personnel of the cableway of the number of passengers in advance.

After a short drive on the Autobahn we leave it at Eschenbach and drive over the Rickenpass (805m ü.M.) to Wattwil. From there we follow the river Thur upwards and then climb to the Schwägalp (1350m ü.M.), from where the cableway to Mount Säntis starts.

The voucher you have purchased is valid for one person and must be handed over to the personnel of the cableway. The cabin has a capacity of 85 persons, so we will be able to ride to the top in one trip. At the summit (2473m ü.M.) we enjoy a fantastic panorama, and if you like, you can have a coffee at the restaurant.

Then we continue to Urnäsch and Gonten to Appenzell. Part of this route, especially at the beginning, has a steep downward gradient. Be very careful not to overheat the brakes and switch the automatic transmission to level 2 or 'low'! The distance driven from Pfäffikon to Appenzell is about 85 km.

10:00 Departure of the other teams to Appenzell. We use the Autobahn for a short while and leave it at Eschenbach. Then we tackle our first pass, the Rickenpass, 805 m ü.M., and enjoy a pleasurable cruise through the hilly prealpine landscape of the

The route from there down to St.Peterzell has a steep downward gradient. Be very careful not to overheat the brakes and switch the automatic transmission to level 2 or 'low'!

We continue through Schönengrund, Waldstatt und Hundwil through a picturesque landscape to Appenzell. The distance from Pfäffikon to Appenzell on this route is about 73 km.

about 16:30 Return to the hotel Seedamm Plaza. We leave the hilly landscape of Appenzell and drive eastwards through Gais down to Altstätten in the Rhine valley. Here, one can continue with a leisurely cruise on local roads or choose the faster way on the Autobahn. We suggest to continue till Sennwald and only then to take the Autobahn. The distance from Appenzell back to the hotel Seedamm Plaza is about 121 km.

Friday, August 28th

On Friday, we drive about 110 km.

09:00-10:45 Drive to Lucerne to the Verkehrshaus (Swiss Museum of Transport).

From Pfäffikon we drive through the hills shaped by glaciers of the last ice-age towards central Switzerland. Through the landscape with characteristic moraines and small lakes we reach Hütten and then Menzingen. From there it is a long descent with many beautiful views down to Zug at the Lake of Zug. (Caution: it may not seem steep, but it is long. Prevent overheating of the brakes by switching to a lower gear).

Then the road guides us along the shore of the Lake of Zug to Arth.

Now we turn our backs to the Lake of Zug and cross over to Küssnacht at the Lake of Lucerne and continue along the lake through Meggen to Lucerne and the Verkehrshaus.

Here we parade our Cadillacs through the main entrance to the central arena of the museum where we park and present our cars (guarded by personnel of the museum) to the public.

Please note: Entry to the Verkehrshaus is only possible with the corresponding voucher

which will be collected at the entrance. Teams not having booked the visit of the Verkehrshaus and passengers without voucher are not allowed to enter. The car will have to be parked at the public parking space.

- 20:00 The ship is back at the Verkehrshaus, and we start our Cadillacs for the trip back to Pfäffikon. Again, we drive along the Lake of Lucerne to Küssnacht, where we change to the Autobahn.
